

# Turtle Tricks!

Use addition and color by number!

COLUMN 1	COLUMN 2

These 8 turtles need to get paired off by color, but they won't show their shells until you solve the math problems!

## COLOR KEY:

- RED = 13
- GREEN = 17
- Yellow = 19
- Brown = 23

Once you've solved the equation and colored the turtles, draw a line to match the turtle pairs.
